**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

Affordable Fiber to the home is extremely important to achieve and maintain a competitive environment for both the consumer, network providers and content producers.

Personally, I have experienced robust competitive efforts on the part of the network providers due to local deployments. While I recognize the motive to protect embedded investments in outside plant on the part of established providers like AT&T, we need to protect the new investments by SONIC, WAVE Broadband, MONKEYBRAINS and the like by making sure they are not retroactively punished by raising the costs or limiting their access to provide service to their local customer base.
